

## LifeKnowledge “Life Skills” Lesson Plans

LifeKnowledge provides a variety of instructional materials designed to fit the learning styles of all types of learners and to engage students in learning. This includes 257 lesson plans structured to help prepare high school and middle school agricultural education students. In addition, LifeKnowledge provides 2,100 ideas to help teachers integrate LifeKnowledge lessons into everyday agricultural lessons, a tool to help create unique lesson plans, as well as a search function designed to match lessons to educational standards. Here are just a few of the lessons available through the LifeKnowledge Center for Agricultural Education.

[Defining Responsibility](#)

[Using Planning Skills](#)

[The Need for Leaders](#)

[Types of Teams](#)

[Creating a Personal Mission](#)

[Understanding the Role of Responsible Citizens](#)

LifeKnowledge lesson plans are designed to be comprehensive, yet flexible so the lessons can be used however and whenever agriculture educators choose, whether it's one lesson per year or one lesson per day. They are created to be used by teachers of any level of experience with the topics, be easily implemented into any type of agricultural education program, and to provide sound and useful information using effective, innovative teaching technologies. A new student self-assessment tool and teacher's coaching guide will be released in fall 2006.

Included in the lesson plan materials are:

- lesson plans
- learning objectives
- transparency masters
- quizzes and tests
- vocabulary lists
- role modeling and scenarios
- age appropriate activities
- self-assessment or behavioral assessment instruments.
