This opens the multiple year membership records. Each year is individually entered & then expired. Records go back to 2002. If a year is missing sometimes there is more than one member number for that student. Try pulling records with their name, if you used a member number before, or different spellings of their name. Use the wild card search (%) to look for other numbers. For example, enter J% in the first name field and Smith in the last name field to look for other spellings of John. Click on Return to Search at the bottom of this screen to return to the search screen.
